# 1) Introduction

## *Unreal Engine 5.1 meets the Binance Smart Chain*

Throughout the 50-year history of home video gaming, games have been a diversion, something to take your mind off a hard day's work. But now, a new generation of video games is using blockchain technology to reward gamers with cryptocurrency. With the use of the powerful Unreal Engine 5.1; we are designing a state of art open world which will host our Crypto Quests Metaverse. CQ Players will be able to play in our Metaverse after connecting their Web3 Wallets with our upcoming application. Regarding the game's economy; we will apply the Play To Earn model powered by our native token \$QUESTS. Players will be able to earn real money through a plethora of gaming aspects (PVP, Racing, In Game Trading Shops, PVE, Riddle Solving and more). Join us early and be a part of our epic digital World. Holders with at least 1000 \$QUESTS tokens will get automatic reflections in BNB coins.

[EXPLORE OUR WEBSITE](#)

## 2) Concept Description

The Crypto Quests Metaverse is a complex of 21 islands designed with Unreal Engine 5.1 & powered by our BEP-20 token named \$QUESTS. Players will spawn on a main island which will act as a big safe zone and will be the portal of our digital world. They will be able to choose an island to inhabit; form teams and build their villages.

The entrance to islands will be authorised via NFTs. The game will offer adventures to both PVP & non-PVP players. The PVP aspect will be very bold in our world & it will take place on most of our islands. But there will be some islands for PVE & some for completely peaceful missions such as Mystery Island (which is shortly presented in the next pages). Players will be able to take part in daily tournaments either solo or as a team. They will mine resources; craft items and upgrade their technology. They will be called to build their villages and defend them from intruders. Team leaders will be able to form alliances and trade goods with other villages or declare wars and expand their territories. Trading will be a major aspect of the game. Players will be able to own various types of shops & earn profit through in-game items or their NFTs. More details will be published as we are heading to the official game launch on Q4 2023.

SKILL CATEGORIES

# Customizable Avatars

Players will be able to create their own 3D avatar. The CQ Metaverse will take place on 21 islands & there will be a variety of themes among them. Each player will be able to connect one avatar for every different theme to his Web3 wallet.

# Game's Earning Aspects

We are building a world where players will be able to experience a plethora of gaming aspects. The same strategy applies on Earning Aspects. Players will be able to earn money through 6 major categories.

# In-Game Trading Shops

Players will be able to own In-Game Trading Shops via NFT Shop Owner Cards. Depending on their profitability & their in-game utility, shops will be divided into 4 categories. Basic, Advanced, Premium & Legendary. Early investors that contribute more than 1 BNB coin on our presale, will be awarded with one Basic NFT Shop Owner Card each. After the presale stage , players will be able to trade their NFT Shop Owner Cards via our NFT Marketplace. The total number of trading shops will be finite. Here are a few samples of the upcoming trading shops.

## Gun Shop

## Food Market

## Car Shop

## Garage

## Gas Station

## Cyber Tuning Shop

## Bike Shop

## Bike Accessories Shop

## Taxi Shop

## Boat Yard

## Military Vehicles Shop

## Bicycle Shop

## Tool Shop

## Barber Shop

## Clothing Shop

## Butchery

## Vegetable Farm

## Animal Farm

## Archery Shop

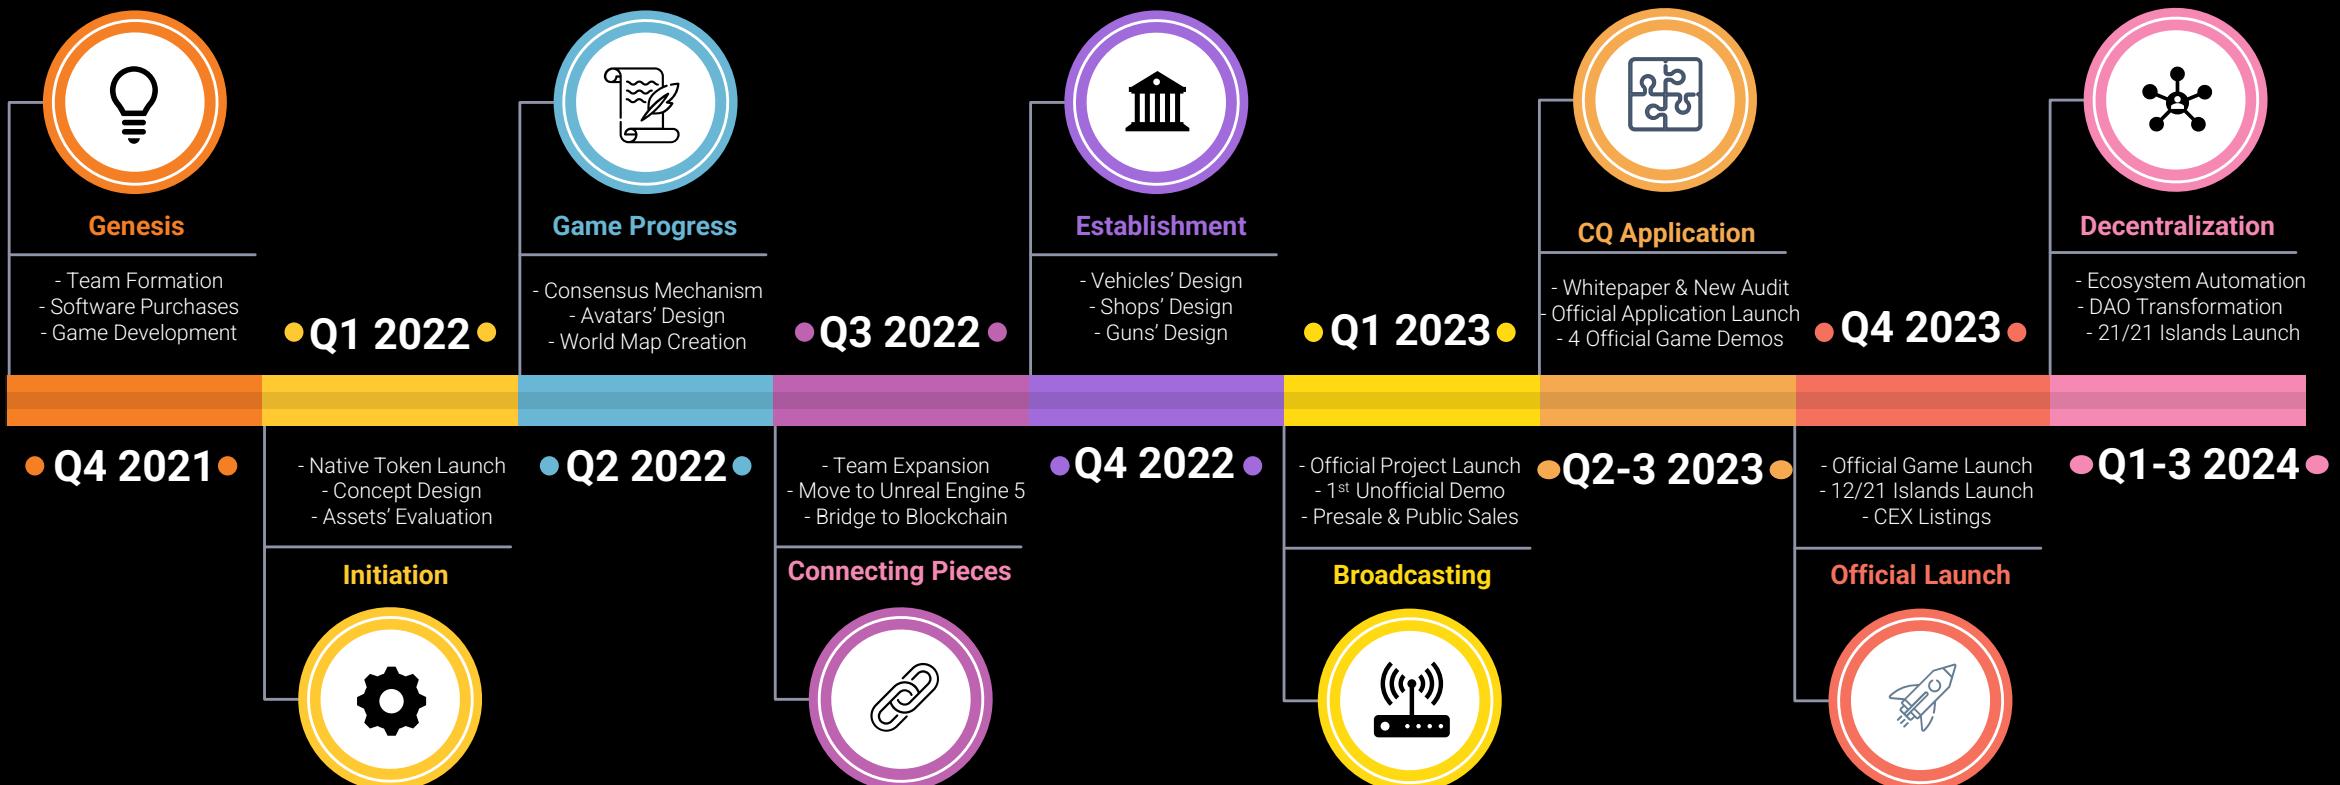

## Stable

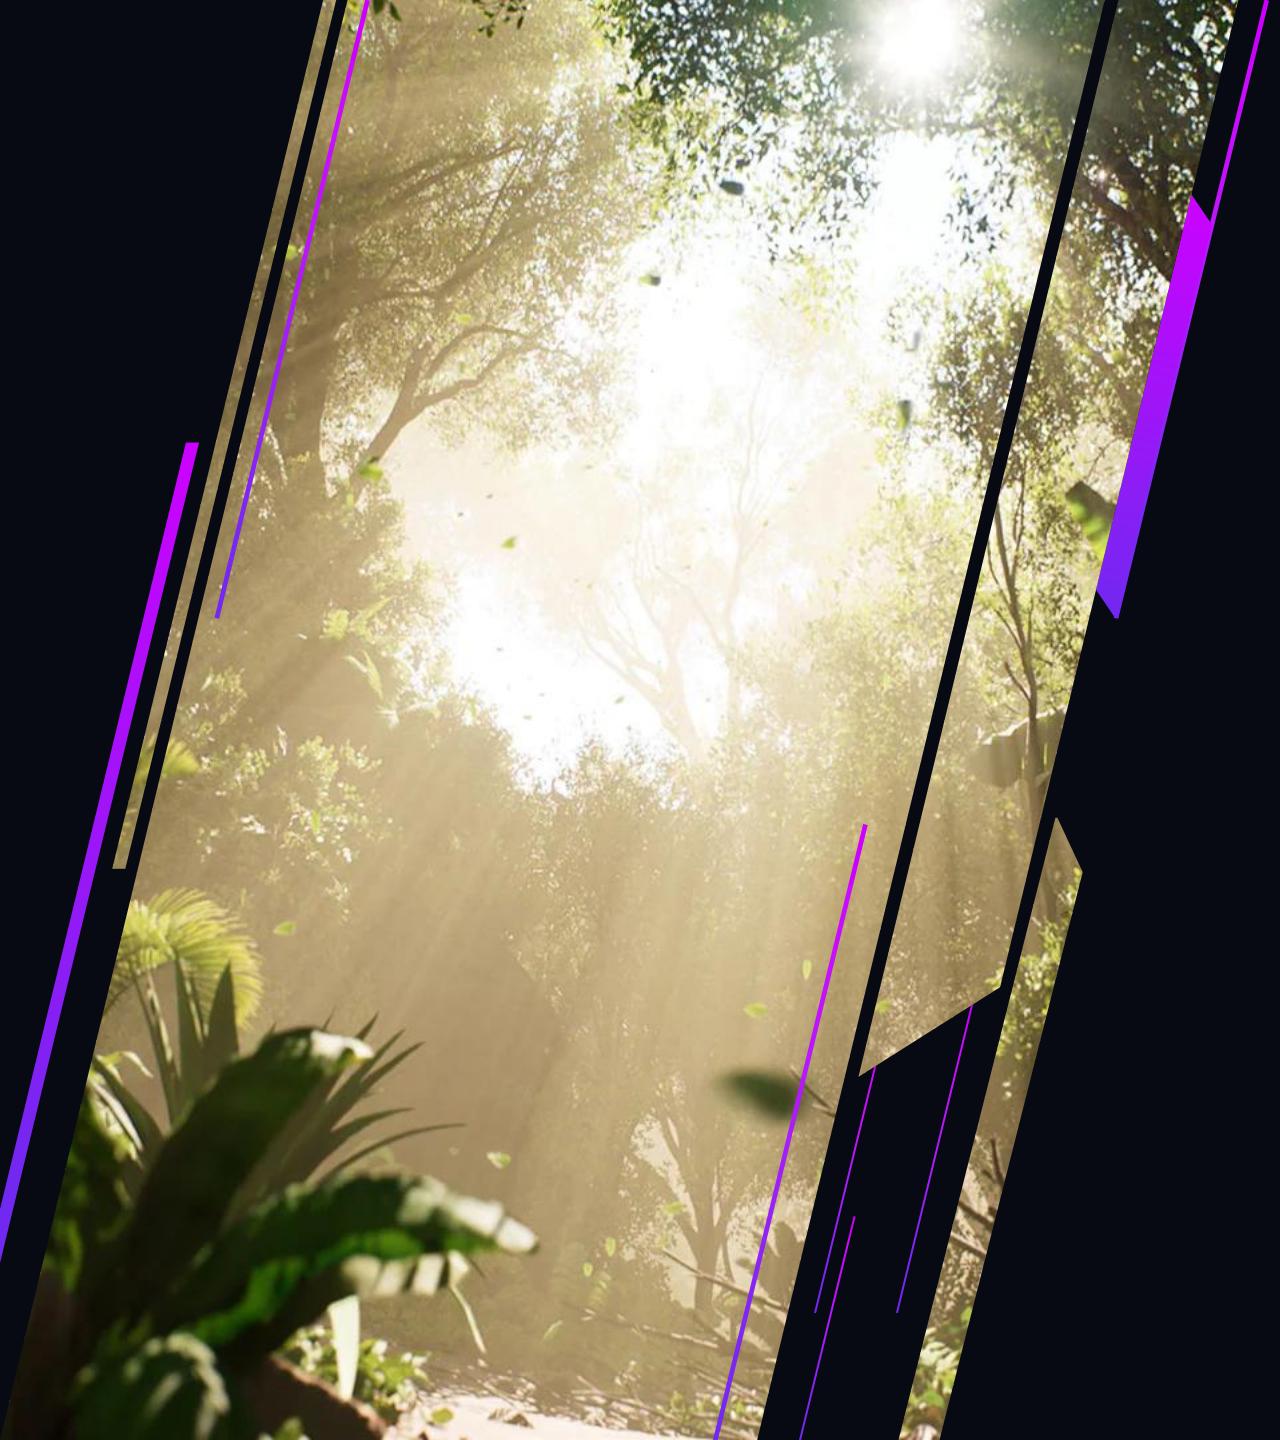

## Game Shop

# 3) Roadmap

# 4) Islands Showcase

## Hope Island

Players will spawn on the Hope Island. It's a huge safe zone and will act as the game's central hub. People will be able to socialize; form teams and inhabit new islands or join PVP events 24/7. Vending machines & NPCs will help the players equip themselves with the essential items (food, guns, maps, tools, vehicles and more). All transactions will be paid in \$QUESTS tokens. Early Investors will be able to open trading shops (for a limited number of people). Stay tuned for more!

### Create your Empire

Socialize with other players & form a team. Colonize an island and build your civilization. Upgrade your technology & lead your tribe to glory.

### Join 24/7 PVP Events

Deathmatch, Capture the Flag, Battle Royale.  
Compete for QUESTS tokens. Win & Get Paid instantly!

# Racing Island

**Tune your car & Race for bets**

In-Game items; NFT Rewards; Token Rewards to be earned

From horses & bicycles to modular cars; motorbikes; boats & helicopters!

Crypto Quests Metaverse will have a plethora of vehicles. Players will be able to buy/sell vehicles from vehicle shops in Hope City or upgrade their technology tree & craft them. Garage shops & gas stations will be available too. The racing island will host 24/7 tournaments. This island will be included in 1 of our 4 official demos , coming on Q3 2023.

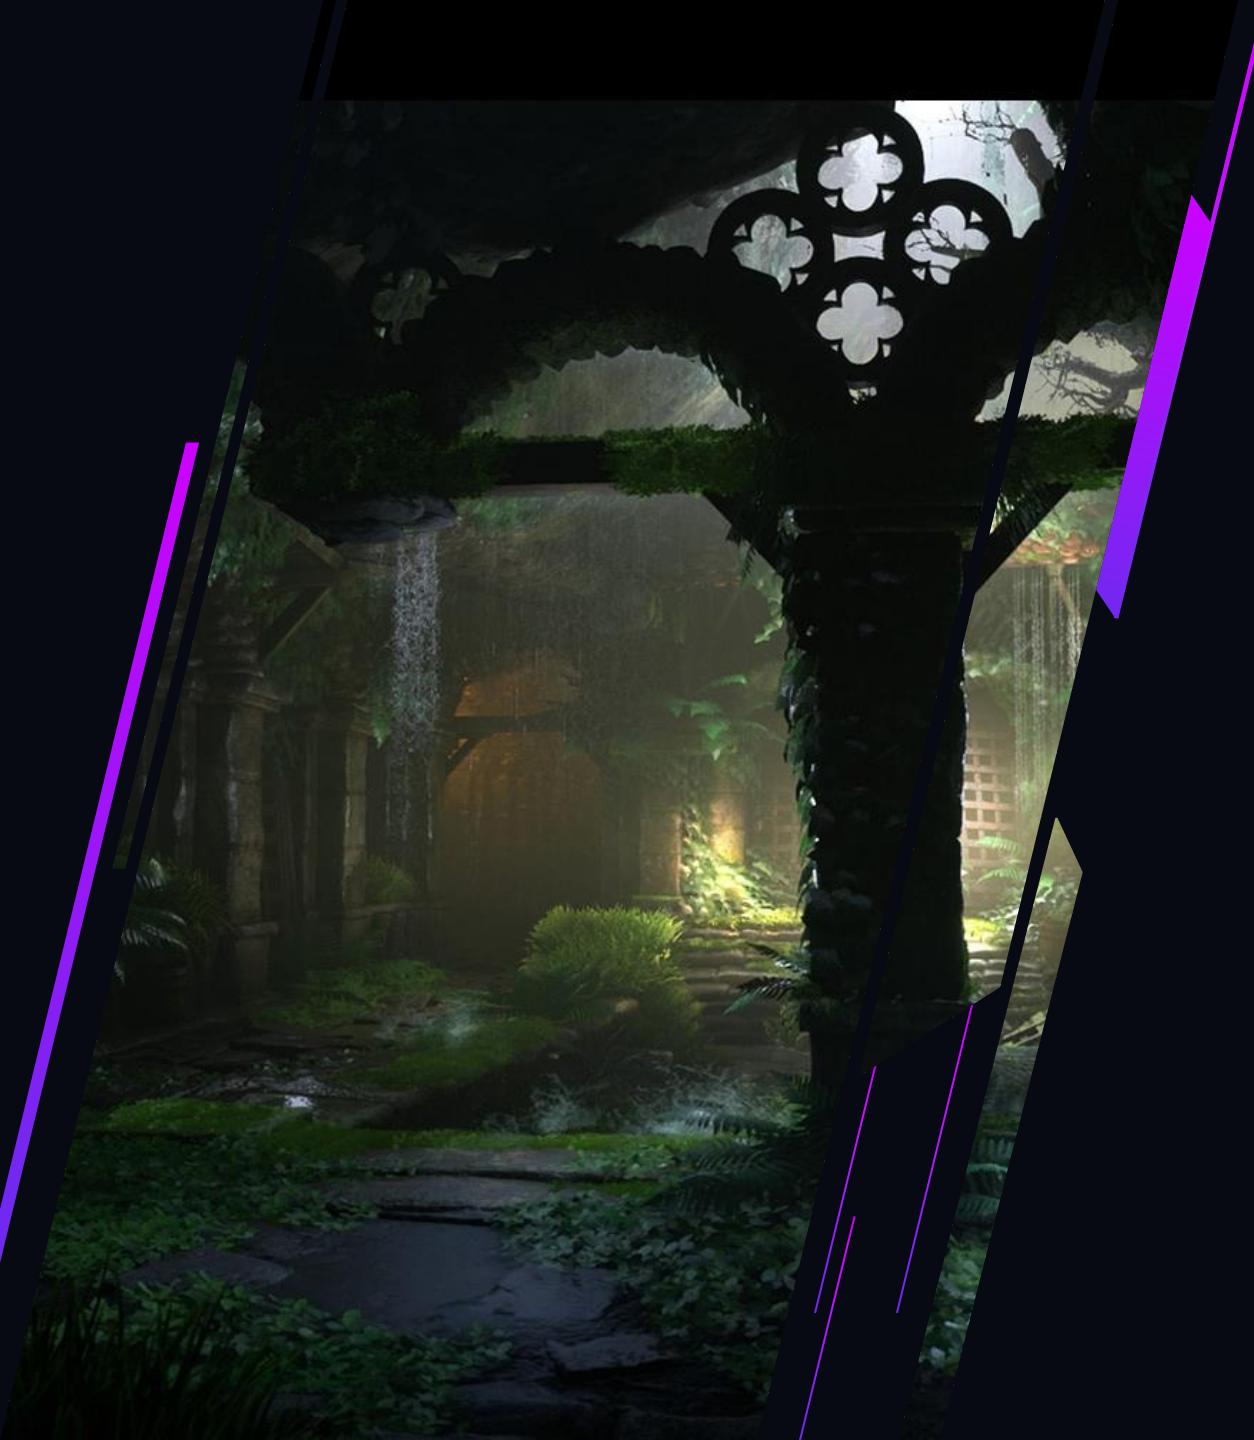

PROFITABILITY

SKILL

VIOLENCE

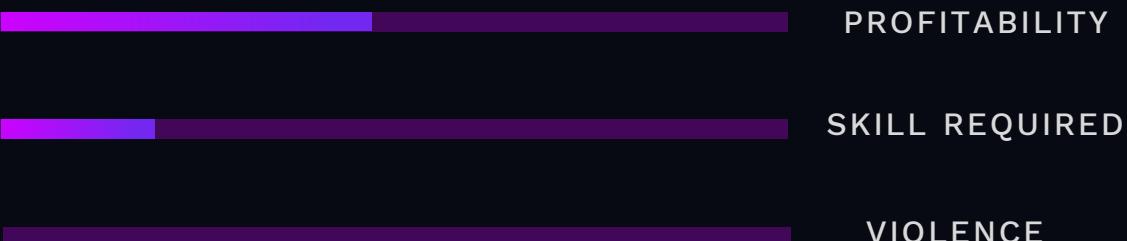

# Mystery Island

## Solve Riddles

NFT Rewards; Token Rewards to be earned

There will be a new riddle every week. It will require interaction with the CQ Metaverse in order to be solved. The fastest solvers will get rewards. Special Riddle Events every month. There will be zero violence on this island.

# Post-Apocalyptic Island

## Survive the Apocalypse

In-Game items; NFT Rewards & Token Rewards to be earned

This island is our CEO's favorite & will host the post-apocalyptic CQ experience. Did you ever want to have a Rust or Day-Z gameplay experience on the Web 3? Just wait until Q4 2023. Of course, you will be able to get a taste sooner as this island will be included in 1 of our 4 official demos , coming on Q3 2023.

PROFITABILITY

SKILL

VIOLENCE

# Modern Warfare Island

## Project Mayhem

In-Game items ; NFT Rewards; Token Rewards to be earned

On this island, players will have a Modern Warfare experience. From RC exploding cars, to surveillance or bombing drones, players will have a plethora of weapons & tools to conquer the island. Special events will be held, either for solo players or for teams. This island will be included in 1 of our 4 official demos , coming on Q3 2023.

SKILL

# Farmlands Island

## Grow the food; Get your money

In-Game items; NFT Rewards & Tokens to be earned

Players will be able to own farms. Either by raising their livestock or growing their vegetables, they will be able to gain profit, because food will be essential for all CQ Players in order to survive.

PROFITABILITY

SKILL

VIOLENCE

# Zoo Island

## Animal Hunting & Fishing

In-Game items ; NFT Rewards; Token Rewards to be earned

---

Zoo Island will host various animal species. Players will be able to hunt game only with primitive weapons & traps. Fishing will be available too. The resources will be renewed everyday but will be limited. Owners of food markets will have a smaller limitation over hunting quantities.

# Industrial Island

## Fuel the economic growth

In-Game items ; NFT Rewards; Token Rewards to be earned

---

Players will be able to own factories & produce materials , necessary for crafting advanced items. From vehicles' production to batteries & guns , this island will be the industrial centre of our Metaverse.

 PROFITABILITY

 SKILL

 VIOLENCE

# Pirate Island

## Ready for Treasure Hunts?

In-Game items & NFT Rewards to be earned

This island will act as a hub for pirates & privateers. There will be a main safe zone but outside of it , no laws will apply. Get ready for Treasure Hunting, PVP duelling & ship cannoning. This island will be included in 1 of our 4 official demos , coming on Q3 2023.

# Mythical Island

## History is a place for heroes

In-Game items ; NFT Rewards; Token Rewards to be earned

---

Mythical times will come to life on this Island. Players will be able to choose between several civilizations & revive an old glorious era. Greek, Egyptian, Roman, Viking & more cultures are already being implemented and will be showcased on the next months. Although our goal is to build a completely realistic Metaverse , there will be a small touch of magic on this island.

# Medieval Island

**Experience the time of Knights**

In-Game items ; NFT Rewards; Token Rewards to be earned

---

On this island players will experience the Knights' Era. The castles will serve as a centre of administration and justice, and as a place of refuge in times of conflict.

 PROFITABILITY

 SKILL

 VIOLENCE

# Wild West Island

**Are you a Cowboy or a Sheriff?**

In-Game items ; NFT Rewards; Token Rewards to be earned

On this island, players will have a Wild West experience. Besides classic PVP duo arenas, there will be saloons , ranches & casinos. Blackjack, Poker & 8 pool games will take place. Players will be able to bet QUESTS tokens or NFTs in order to participate. The shop owners will automatically take a very small percentage of the pots on every game. Exclusive audit will be done especially for the casinos. Limitations will apply on how much a player can spend everyday in order to avoid addiction phenomena.

# 10) Disclaimer

The paper that you are reading is not intended to provide investing, accounting, tax, legal or any other advice, nor shall any content on our website be deemed a recommendation that you pursue any investment style or strategy. If you would like investing, accounting, tax, legal or any other advice, you should consult with your own professional advisors regarding your individual circumstances and needs. Cryptocurrencies are not governed by any regulatory authority; their market is non-centralized and non-regulated. Before investing on our project, you should research cryptocurrencies carefully. Our cryptocurrency \$QUESTS is not suitable for everyone. You must acknowledge the substantial risks and potential for losses related to cryptocurrencies & decentralised finance. So before participating you must have considered your own financial circumstances, needs and objectives and concluded that dealing in Crypto market is appropriate for you. If you decide to invest on our token you must acknowledge that part of your presale deposits on Pinksale will be automatically transformed into a Pancakeswap liquidity pool (QUESTS/WBNB). You will get \$QUESTS tokens at a fixed price by the end of the presale stage. This liquidity pool will be locked for 8 months. After those 8 months, along with the official Game Launch we will migrate to a new & safer contract. Token owners will automatically get their same share of the new tokens. We will also get listed on Central Exchanges among the decentralised one (Pancakeswap V2). If Binance exchange collapses or faces dramatic times we will move to another blockchain (most likely Ethereum).

# 11) Social Media - Contact

Join our Social Media and be a part of one of the best play to earn Metaverses ever made! Stay tuned for Airdrops and exclusive member events! Discord channel will be launched on Q2 2023. Feel Free to contact us.
